

# Imperial Health

The Science of Health. The Art of Caring.

---

## 2019 Novel Coronavirus

To ensure the safety of our patients, visitors and staff, we continue to monitor the impact of the COVID-19 pandemic and to proactively ensure our patients and workforce remain safe and protected.

Imperial Health is screening patients as they schedule and or present to a clinic if they are exhibiting symptoms of respiratory infection including fever, coughing and shortness of breath and/or have been in contact with a known COVID-19 case. If they are experiencing any of these symptoms or have been in contact with a known case, they will be asked to contact the clinic prior to showing up and could be asked to reschedule.

Patients with questions or concerns should contact their care team.
